Accelerate Your Mail Processing

Digital Mailing System with IntelliLink® Technology

DM400™ Digital Mailing Series

A Solution that Maximizes Productivity

The Pitney Bowes DM400™ Digital Mailing System can help streamline your business. With its leading-edge technology and advanced features, the DM400™ system will not only accelerate your mailstream, but also make it easier for you to communicate more often with your customers and meet critical mailing deadlines. The convenient automatic feeder of the DM400™ system frees up employees' time so they can concentrate on more important tasks. Plus, our unique IntelliLink® technology gives your business access to a full range of USPS® Special Services. Dynamic software downloads keep your system current, with minimal effort.

Enhance productivity and streamline your mail processing – all with the innovative DM400™ system. It's designed specifically to help your business maintain its competitive edge.

Boost Efficiency with IntelliLink® Technology

IntelliLink® technology is your digital gateway to new levels of productivity. Its user-friendly control center makes the DM400™ system simple and easy to use. Convenient presets can store up to 10 jobs for quick access to routine tasks. Dedicated functions, labeled keys and a QWERTY keyboard enable fast processing for operators of all skill levels. Even inexperienced operators can quickly learn the system's setup.

With IntelliLink® you have easy access to the full range of USPS® Confirmation Services and electronic Return Receipt as well as superior tools for mail management. Plus, you can receive

postal rate updates, software upgrades, postal inscriptions and graphics via the IntelliLink® Control Center. Your system remains current and operates at maximum efficiency.

- > **USPS® and carrier payment solutions** – Pre-pay for postage, get a Postage Advance, or earn interest on the balance of your Reserve Account.
- > **MyAccount** – Online access to your account information enables you to order supplies, request service, pay bills online, and more.

Add USPS® Special Services, including Delivery Confirmation™, Signature Confirmation™, e-Certified and e-Return Receipt to bring value-added services to your office.

Large-Mailroom Productivity for Your Office

With the DM400™ Digital Mailing System, mailstream management is easier than ever. And when you reduce labor-intensive activities such as hand-feeding and take advantage of our online services, you greatly improve your office operations.

- > **Automatic Processing** – Automatic feeding, sealing and imprinting postage on up to 95 letters per minute helps to effectively manage large mailings.
- > **Flexible Feeding** – Handles material up to 5/16" thick and sizes ranging from postcards up to 11" x 13" flats.

- > **Convenient Updates** – Obtain postage 24/7 and handle rate changes more easily with automatic updates; no more scrambling to replace a PROM chip in the scale.
- > **Online Access to Vital Services** – Provides USPS® Special Services, including Delivery Confirmation™, Signature Confirmation™ and Electronic Return Receipt for Mail™.
- > **Internal Rating Function** – USPS® domestic and international rates help you select the most effective and economical postage rate.
- > **Integrated Weighing** – Save space and easily process individual, oversize pieces by determining the precise postage.
- > **Digital Meter Indicia** – Satisfies all current USPS® regulations.

- > **Auto-dating** – Reduces returned mail caused by misdating; operators can advance the date to get a jump on processing the next day's mail.
- > **Time-Date Stamp** – Provides dual functionality to track incoming mail efficiently.
- > **Accounting Capability** – Tracks up to 50 accounts, with options for up to 300; data can also be printed or exported to a PC.
- > **Expanded Accounting Options** – Increase your tracking and reporting capabilities with Pitney Bowes' Budget Manager; expansions available for up to 1,500 accounts.

Use Your Mail to Advertise

The DM400™ Digital Mailing System comes with 10 standard envelope ads and 10 postal inscriptions. You can download additional ads and inscriptions directly into the IntelliLink® Control Center.

The Value of a Constant Connection

Standard functionality requires a telephone line to access postage and software downloads.

With optional Constant Connection:

- > 24/7 access via Internet connection through your Local Area Network
- > Download software upgrades and postage at a touch of a button
- > Upload Confirmation Services™ transactions for convenient mailpiece tracking

No need to move mailing system or to install a phone line.

Enhanced Automatic Feeder with 8 rollers easily handles different size envelopes – from postcards to flats
