

Powerful capabilities and dynamic technology

Your mail center is a vibrant and critical part of your business. You count on it to effectively and efficiently process important communications that go to your customers and business partners. Whether you are promoting your business, acquiring new customers, strengthening relationships with existing customers, or driving and collecting revenue, you need a powerful mailing system that can handle all of your business mailing needs.

The DM925™ Digital Mailing System meets the demands of high volume mailers as it automatically feeds, seals, posts and stacks up to 250 letters per minute. With its many advanced features such as Mixed-Mail Feeding, Shaped Based Rating, and Weigh-On-The-Way™, it seamlessly processes all types of mail of various weights and sizes – eliminating costly multiple processing steps. It offers a host of time-saving features for all of your mailing needs.

And the system is powered by the revered IntelliLink® technology and Command Center. Powerful and simple. Innovative and integrated. The DM925™ Digital Mailing System can grow with your business. Put the advanced power of Pitney Bowes to work for you.

High demand mailers demand excellence — and get it

True Mixed Mail Feeding – Handles mail ranging from postcards to 10"x13" flats up to 3/4" in thickness – in a single stream, eliminating manually sorting of varying types of mail.

Weigh-on-the-Way™ – Our patented technology in conjunction with Shape Based Rating functionality, maximizes efficiency by processing mixed weight and mixed sized material up to 16 oz. – automatically and in a single operation. Each piece is weighed and measured, the proper postage is calculated and imprinted at speeds of up to 120 letters per minute.

Differential Weighing – This feature enables you to place mixed mail pieces on the scale and as you remove a single piece from the stack, the correct postage is calculated and printed.

Interfaced Weighing Platform – The flexibility is yours to configure the best system for your mailing application by choosing from four weighing options: 15 lb., 30 lb., 70 lb. or 149 lb.

Carrier Rates – Realize rate shopping flexibility between carriers with Standard Rates for UPS and FedEx.

Postage Pass – Automated postage refill ensures you never run out of postage.

Dual Tape Capability – A standard feature to apply either gummed or pressure sensitive tape to virtually any material.

Time/Date Stamp – Mark incoming mail as "RECEIVED" with date and time to expedite handling.

Job Presets – Doing a lot of routine jobs? No problem! The system can store in memory up to 25 of your everyday jobs so that even new operators can run the application easily.

IntelliLink® Technology Command Center
A centralized point of operation offers ease of use and access to a host of services and capabilities.

Mixed Mail Feeding
Eliminates manual sorting and
Increases productivity.

Secure Postage Printing

Uses digital technology to print USPS® compliant Information Based Indicia (IBIP) secure postage printing and apply downloadable postal inscriptions

Gain accountability

The DM925™ Digital Mailing System makes it easy to keep an eye on all your postage expenses.

Standard INVIEW™ Accounting

Tracks and displays expenses for up to 100 accounts. A built-in keypad allows the full naming of accounts, and speed codes provide for quick selection as well as 15 operators, transaction level data and enhanced reporting capabilities. Expansion options for up to 300 accounts are available.

Expanded accounting options

Increase your reporting capabilities with Pitney Bowes' Budget Manager and expand your accounts up to 1,500. And to maximize visibility and control, the DM Series™ Mailing Systems integrate with Business Manager, our PC-based accounting solution.

Weighing Options*

Choose from many productive weighing options, including differential weighing.

Power Stacker*

Maximizes your throughput for optimum productivity.

Ergonomic Console*

Operator-centric design minimizes noise and vibration and provides access for storage.

Envelope Ads -add messages to your mail with a choice of downloadable envelope ads

* Optional features

The DM925™ coveted IntelliLink® technology gives you operational authority

Your DM Series™ mailing system comes equipped with the IntelliLink® technology Command Center. This powerful interface is integrated and intuitive. It acts as your system's control center, allowing you to easily activate and control all of the functions of the DM925 from a single, central location.

Realize dynamic capabilities such as the ability to track and account for postage expenditures. Direct the system to read a barcode with the mailer's cost center information or key the data directly into the Command Center for accurate postage account management.

The IntelliLink® Command Center also provides you direct access to the Pitney Bowes network -- opening a portal to active downloads for software upgrades, USPS® rate updates, a full range of USPS® services, optional system feature enhancements and new capabilities.

All of these powerful capabilities and services are accessed from a central point, yet the Command Center has been designed for use by any level operator. With easy to read prompts, the system guides the user with step-by-step instructions making it quick and easy to get your mail out the door, and help with end of day mailing challenges.

IntelliLink® Technology — gives you direct access to a complete suite of management information and service capabilities that will help raise your mail center to new levels of productivity and efficiency

Constant Connection

- 24/7 High Speed Internet Connectivity For Speedy Downloads.
- Upload Confirmation Services transactions for convenient mail piece tracking.

USPS® and carrier rate updates

- IntelliLink® downloads carrier and postal rate, class and service changes directly to your system when you need them.

USPS® and other carrier payment solutions

- Pre-pay for postage and earn interest on the balance of your Reserve Account or get a postage advance with 24/7 access.

Download improved system features and upgrades

- Get instant updates to your DM Series™ operating system for maximum performance and productivity while eliminating near term obsolescence.

Download USPS® Confirmation Services

- **E-Return Receipt** – This service from the USPS® eliminates the need to fill out the traditional Return Receipt “green cards” and gives you a substantial discount. Combine e-Return Receipt with Certified Mail™ to get both proof of mailing and proof of delivery.
- **Delivery Confirmation™** – Get confirmation on the date, Zip Code™ and time the mail piece was delivered.
- **Signature Confirmation™** – All the advantages of Delivery Confirmation with the additional benefit of requiring the recipient's signature. A proof of delivery record including the recipient's signature, is maintained by the USPS® and is available by fax, mail or e-mail.
- **Certified Mail™** – Receive an optional proof of mailing as well as a unique tracking number that allows you to obtain delivery details online.

Features on demand

- **Envelope Ads** can be downloaded to promote your business, your favorite charity or to celebrate a holiday.
- **Postal Incriptions** are required to meet USPS® regulations for postal discounts and can be downloaded when considering a new class of mail.

Virtually unlimited accounting options

Money management at its best. Whether you want to track 1 or 1,000 accounts, the flexibility is yours. Allows you to effectively manage, track and charge-back departmental or client costs.

- Download Departmental Accounting software to expand your accounting capacity.
