SendSuite Xpress & Ascent

What's New in SendSuite Xpress 2.60 & Ascent 9.60

IMPORTANT

You must be at Ascent v9.50 / SendSuite Xpress v2.50 to perform this update.

- All carrier manifests except POS and POM should be Closed and Printed.
- Carrier manifests for POS and POM should be opened for a New Day.

General Updates

- SendSuite Xpress 2.60 is now MAC Cycle Q Certified.
- SendSuite Xpress: New Service "4V - Media Mail: Single Piece Flat" added to PON

XAVS Engine Update

XAVS Engine has been updated to version 9.00. This update includes the Nov 2015 StreetSmart data. The XAVS Engine update is mandatory in order to get StreetSmart data updates.

CERTIFIED Label Enhancements

Users can now have more control over which label (Address vs. CERTIFIED) gets printed when the Certified mail special service is used on Letters and Flats.

Options have been added to Setup >Peripherals >Address Label >Setup. This option will disable printing of shipping address label for CERTIFIED shipments when "Print address Label" is set to "Except for Certified Flats & Ltrs"

Phone Number Format

Phone numbers with extensions should include "x" after the first 10 digits. The numbers entered without "x" will be truncated after 10 digits.
