

Don't Put Your Company's Privacy At Risk

Document Shredder Model SH7A

In a busy office environment documents are moving around at the speed of light. Many of these documents can end up in the trash when they are no longer needed, yet contain important, confidential information about your business. That's where the Pitney Bowes® Shredder model SH7A comes in. This heavy-duty shredder will securely handle the destruction of documents in any office setting. The model SH7A helps gives you the peace of mind that business is being done without putting your confidentiality and privacy at risk.

Impressive Performance

A fast-paced office needs a high-capacity shredder that can be counted on. The Pitney Bowes Shredder Model SH7A stands up to the task. This power-house shredder has specially hardened steel cutting cylinders that can handle all the paper you feed it, as well as CDs, DVDs, Credit Cards and of course staples and paper clips. And it's fast. The last thing you want is to have all your employees spending a lot of time standing at the shredder, but this machine gets the job done securely and quickly while maintaining your company's privacy.

Benefits

- Quiet and dust-free operation
- Cross-cut process protects confidentiality cuts documents into tiny unreadable pieces
- Accepts paper up to 16" giving your office more shredding flexibility – easy feeding of legal and letter size documents
- Automatic on/off operation
- Control panel with indicators telling you the machine is ready or the bag is full.
- Special steel cutting cylinders to handle heavy duty items like CDs and DVDs
- Thermally protected motor to help prevent overheating during heavy operation
- Powerful, efficient motor with heavy duty steel gears for high performance and minimal noise
- Rolling Casters – easy to position in place or move locations
- Large waste compartment requiring less frequent changing
