DIGITAL MAIL

Your agency's mailstream is critical to its operations. It links you with your constituents and plays a key role in achieving your mission-critical objectives. Interruptions to your mailstream can have a catastrophic impact on your agency.

Pitney Bowes Secure Mail and Business Recovery Solutions

Pitney Bowes Secure Mail Solutions are designed to help protect your staff, your operations and your facilities from a wide range of mail-borne threats that could severely impact your ability to carry out your operations. Pitney Bowes also offers Business Recovery Solutions, which help ensure the continuation of your mailing operations in the event of a natural disaster.

Not every government agency has the same requirements with respect to continuity of operations (COOP). Therefore, we customize our Secure Mail and Business Recovery solutions to meet your specific needs.

Managed Solutions

Pitney Bowes has pre-engineered "baseline" solutions that can easily be adapted to your requirements based upon:

- Tailored Risk Assessment
- Adaptable Solution Design
- Rapidly Deployable

And supported by an experienced staff:

- Specifically Trained for Your Solution
- Background Checked
- Bonded
- Medically Screened (as required)
- Security Clearances (if necessary)

Protect your mailstream from disruptions by implementing a secure mail and business recovery plan. We can help. Call today for more information: 301-731-6552.
