## The Affordable Alternative from a Trusted Name in Mailstream Solutions

### Keeping Your Image Sharp – Cost-Effectively

It's essential that every document, copy and fax produced by your organization be crisp and readable. Attractive, easy-to-read printed material helps employees work more efficiently and also tells the outside world that quality is important to your organization.

The keys to good print quality, of course, include excellent toner and dependable ink jet cartridges, but the cost of these supplies sourced from original equipment manufacturers (OEMs) can be sky high. However, that doesn't have to be the case. Pitney Bowes, which has been engineering business communication for nearly 90 years, offers a complete line of ink jet and toner cartridges. These products are fully compatible with all major printers, fax machines and copiers and cost as much as 35% less than OEM cartridges.
