into your  
mailstream.

### **IntelliVIEW™ Mail Tracking Solution**

More and more customers today are looking for an innovative solution that will provide them with more transparency, USPS® induction for compliance monitoring, tracking and delivery validation, along with risk mitigation.

### **IntelliVIEW offers greater visibility into your mailstream**

so you have the ability to track your jobs from when they are first processed by Pitney Bowes Presort Services, right up to the last processing scan with the USPS. IntelliVIEW requires no capital investment for software and hardware, or additional expenses for internal resources such as IT, data management, maintenance or software licensing.

### **Powerful analytics save you money and make**

**compliance easier.** With the IntelliVIEW solution, you can view or download geographic delivery and tracking data and run your own analytics. You now have the ability to see detailed reporting as “proof” that mailings were sent in time. For example, some financial markets require compliance monitoring and auditing trails to verify Service Level Agreements (SLAs).

Pitney Bowes Mail Services continues to provide you with innovative solutions to help your mail operations run at peak efficiency.

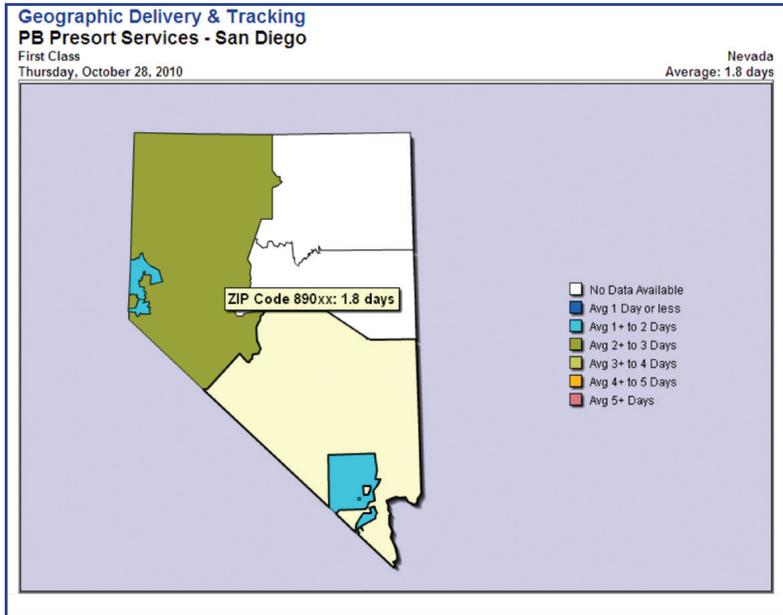

Talk to your sales or customer service representative today and see how the IntelliVIEW solution can help you manage your mailstream more efficiently.
