

What if you could **enhance** school safety, **save** money, and **track** critical information?

If you had the information you needed right at your fingertips, you would be able to respond more easily to all these challenges. With just a few keystrokes, you could find out who is going in and out of your school. You could determine whether the students in your classroom reside in the district, helping you spend your funds on the right children. And you could track and safeguard your test booklets in keeping with the provisions of the No Child Left Behind Act.

Pitney Bowes has leading edge technology to help you manage these critical challenges.

* **LobbyGuard®. School safety for the 21st century.**

Identify the people who are coming into your school – workers, volunteers, teachers, or parents. LobbyGuard® by LobbyGuard Solutions, LLC allows you to check identification against a database of sex offenders or a list of individuals you have red-flagged for other reasons. With LobbyGuard®, you can also give parents the peace of mind that you are doing everything you can to protect their children.

* **VeriMove™ Address Cleansing Solution. Verification of legal residence.**

Make sure the students in your classrooms belong there. Instead of laborious research, use VeriMove™ solution to find out if they live where they claim or if they have given a falsified address. With VeriMove™ solution, you can assure that your precious financial resources are allocated properly.

* **Arrival® Exam Tracking. Safekeeping for your test booklets.**

Track test booklets to and from testing centers and in and out of your school. With Arrival® Exam Tracking, you can improve the integrity of your exam tracking systems, making it easier to fulfill the provisions of No Child Left Behind. Plus, its easy-to-use scanning system allows you to eliminate log books and other time-consuming manual systems.

To learn more about how to shield your school, save money, and track your exam booklets, call Pitney Bowes at 800-672-6937.
